Have your organisation do the survey and collect your data from Forms and export it to the Excel sheet provided. The easiest way is just to fill in your result at every question and it will give you the result.

Change the numbers for every question into your schools result

Your result will be presented in form of a spiderweb diagram showing your organisations result and balance point. In this example the organisation is strong in Innovative and Flexible. They are in some degree Adaptive but not so traditional.

If you want to work with your organisation to be more flexible, you should study the Personalised Learning Models blue areas for recommendations. Yellow for Innovative, Green for Adaptive and Red for Traditional.

When you feel your organisation has achieved some changes you can do the survey again and see if there are any changes.

Keep on developing your school!
